

FS-1900

Specifications

Technology Configuration:	Desktop Monochrome Printer
Imaging System:	Laser, Monocomponent Toner
Resolution:	Fast 1200 dpi (1800 x 600), 600 x 600 dpi, 2400 x 600 dpi (KIR*)
Drum:	Amorphous Silicon (aSi)
Fusing:	Heat/Pressure
Size/Weight:	13.6"W x 18.1"D x 11.8"H; 28.7 lbs.
Electrical Requirements:	120V, 60Hz
Maximum Duty Cycle:	65,000 Pages
Output Speeds	
Warm Up:	Less than 16 Seconds from Cold Start
First Print Out Time:	Less than 9.5 Seconds
Pages Per Minute:	Up to 19 Letter, 15 Legal
Controller	
CPU/MHz:	PowerPC 405/200 MHz
Interfaces:	Standard Parallel, USB 1.1, Compact Flash Card Optional IB-21e 10/100BaseTX Network Interface, IB-10e Serial Interface, IB-20 10/100BaseTX & 10Base2 Network Interface
Network Operating System:	Windows 95/98/NT3.5x/4.x/2000, Netware 3.x/4.x/5.x/NDS, AppleTalk, UNIX
Protocol:	TCP/IP, IPX/SPX, AppleTalk, NetBEUI
Print Memory:	Standard 16MB, upgradeable to 144MB via 100 pin DIMMs
PDL/Emulations:	PCL 6/5e, KPDL2 (PS2), PRESCRIBE, IBM Proprinter x24E, Epson LQ-850, Diablo 620, KC-GL
Fonts:	80 Outline (PCL, KPDL2)
Paper Handling	
Standard Paper Supply:	One 500 Sheet Letter Cassette plus 100 Sheet Multi-Purpose Tray
Min./Max. Paper Size:	2.8" x 5.8"/8.5" x 14"
Paper Weight:	16-24 lbs. via Paper Cassette, up to 110 lbs. via MPT
Input Material:	Bond Paper, recycled paper, transparencies, labels, envelopes
Paper Output:	250 Sheet Output Tray
Optional Paper Handling:	500 Sheet Paper Feed Unit (Up to 3), 2000 Sheet High Capacity Feeder 500 Sheet Legal Tray, 5 bin Mail Box/Sorter/Stacker (200 Sheets/bin), 2000 Sheet High Capacity Stacker, Duplex Unit, Envelope Feeder
Hardware Options	
Additional Options:	340MB/512MB/1G HDD
In Carton Items:	Mainframe, starter Toner, Digital Library CD ROM containing Drivers, Documentation, Utilities, KM-NET VIEWER Network Administration Software

Where Documents Are Going

outstanding performance and value

Don't let its small size fool you. The new Kyocera Mita FS-1900 is packed with capabilities for optimum office printing across a broad range of applications.

Rugged build quality, combined with fast processing speeds, versatile paper handling, long-life consumables, and low Total Cost of Ownership make the FS-1900 the ideal choice for any small workgroup or department requiring up to 65,000 prints per month.

Standard with a 500 Sheet Paper Drawer, 100 Sheet Multi-Purpose Tray and 16MB of RAM, the FS-1900 grows right along with your business, with options like Duplex Printing, additional Paper Sources, Sorter/Mailbox and Hard Disk Drive.

With over 15 years of experience in Network Printing, you can rely on Kyocera Mita for all of your hardcopy needs.

Get it Fast

A speedy 200 MHz processor, rapid warm up, quick 9.5 seconds First Print and fast 19 letter size Pages Per Minute makes the FS-1900 ideal for any busy workgroup. And, all of your prints are delivered with fast 1200 dpi resolution!

Keep Informed

LCD Panel provides walk-up users with machine status.

At Your Fingertips

Change Printer settings, format the optional Hard Drive, obtain machine reports and more, with easy-to-navigate Control Panel Keys.

Get Connected

Out of box, the FS-1900 supports both USB and Parallel printing, regardless of the computer. With the optional 10/100 Base TX Network Card, everyone can share all of the benefits the unit offers. Add the optional Hard Disk Drive for document storage, proof printing, private printing, and more.

Less to Do

You'll make more prints and perform less maintenance with the FS-1900. For example, our exclusive Amorphous Silicon Drum is guaranteed for 300,000¹ prints. The Toner Container yields 10,000² prints. And, because of our patented ECOSYS[®] Technology, you'll have the lowest Total Cost of Ownership possible without Cartridge disposal issues.

Diversity Online

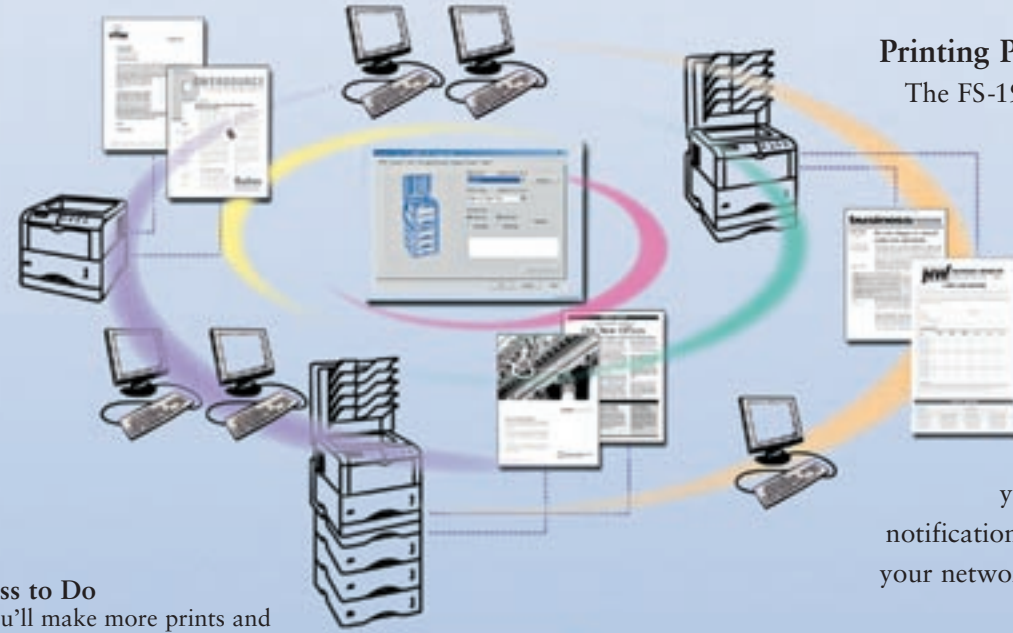

The standard 100 Sheet Multi-Purpose Tray lets you conveniently print onto a variety of paper sizes and stock, without disturbing your primary paper source.

Fewer Interruptions

A standard 500 Sheet Paper Drawer lets you make more prints with fewer job run interruptions. Optional Paper Sources further enhance operating convenience and productivity.

On Both Sides

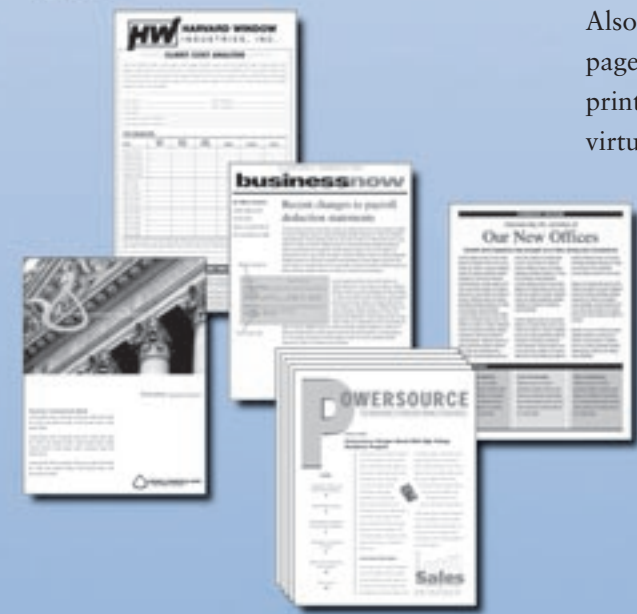

Print on both sides of the page and reduce your paper and mailing costs with the optional Duplex Unit.

Printing Power at your Desk Top

The FS-1900's KX Driver, common among all Kyocera Mita Printers and Copiers, supports all popular Page Languages, which makes printing seamless across a broad range of applications. The intuitive Graphical User Interface makes feature selections and document printing error free. Standard with the KX Driver is KM-NET VIEWER, our Network Management Tool that lets you configure, monitor, receive e-mail notification of problems and more, for all devices on your network from practically anywhere.

Also standard is PRESCRIBE, the FS-1900's native page language that enables you to satisfy unique printing applications, create forms and control virtually every aspect of how your FS-1900 operates.

Expand the Possibilities

For increased printing versatility and capacity, you can add up to three 500 Sheet Paper Drawers, raising the system total to 2,000 sheets from four different sources!

Lower Total Cost of Ownership

Hardware cost is just one factor to consider when purchasing a Printer. Another more important point is your toner cost and its affect on your Total Cost of Ownership. Our ECOSYS[®] technology, long-life Drum and Cartridge-Free design saves you hundreds of dollars over the life of the FS-1900. That's good for you and our environment.

FS-1900 Total Cost of Ownership over 36 months running 8,000 letter size prints per month with a 5% image area. Cost is based on MSRP for hardware and toner. Industry average reflects published pricing for comparable units.

¹300,000 letter size prints or 36 months, whichever comes first.
²Letter size, 5% Image Area.
